MEDICINAL

THE FIRSTBORN.

Why is it that the firstborn child is so often the healthiest of a family of children? The reason seems to suggest itself. As child follows child the mother has less and less vitality; often not enough for herself and none, therefore, for her child.

Expectant mothers who use Doctor Pierce's Favorite Prescription find that it keeps them in vigorous health. They eat well, sleep well and are not nervous. When baby comes its advent is practically painless, and the mother is made happy by the birth of a healthy child. If you would be a healthy mother of healthy children use "Favorite Prescription."

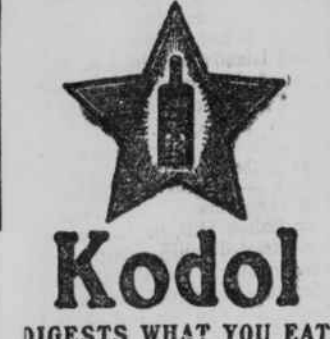

"I will be very glad to give a few words for Dr. Pierce's Favorite Prescription," writes Mrs. P. A. Douglas, of Mansfield, Ontario, Canada. "During the first four months, when I looked forward to becoming a mother, I suffered very much from nausea and vomiting, and I felt so terribly sick I could scarcely eat or drink anything. I hated all kinds of food. At this time I wrote to Dr. Pierce, and he told me to get his 'Favorite Prescription' and a bottle of 'Golden Medical Discovery.' I got a bottle of each, and when I had taken three or four days, I felt much better, and when I had taken hardly three glasses of each bottle I felt well and could eat as well as any one, and could do my work without any trouble (I could not do anything before). I am very thankful to Dr. Pierce for his medicine, and I tell all who will hear me they are sick, to get these medicines, or write to Dr. Pierce."

Those who suffer from chronic diseases are invited to consult Dr. Pierce, by letter, free. All correspondence strictly private. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure biliousness and sick headache.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

LABOR FACTION CLASHES.

One of the greatest clashes between labor factions in the vicinity of Wheeling, W. Va., that has occurred in the annals of the city took place early yesterday morning between the striking machinists and about twenty-five non-union men who took their places in the Riverside plant of the United States Steel Corporation. The battle was initiated Saturday night, and despite the fact that over 1,000 shots were fired in the clash there were no fatalities, and only a few persons were wounded. The machinists have been out on strike for several weeks, and the situation was becoming desperate for the corporation until they imported about twenty men to take the places of the strikers. The men have been assaulted from time to time, but the situation had not reached an alarming stage heretofore. The strikers congregated about the boarding-houses of the non-unionists Saturday night fully armed, and began an attack upon the places. The houses were heavily barricaded and many volleys were fired into the structures. Finally a well-directed shot from within the house wounded one of the strikers, and he was carried to the hospital. Clay Hoover, a spectator, was also shot in the left knee, but not seriously. A number of other people who were in the building with the non-unionists received wounds, which were dressed by physicians. The rioting continued until 2 o'clock yesterday morning, when it abated somewhat. The police were powerless to interfere and reinforcements were requested. About 300 unionists participated in the riot, and a fresh outbreak is expected at any moment. At 10 o'clock last night the strikers, who were lying in the hills, fired upon Peter Silatek, who was passing that point. He was seriously wounded. The strikers mistook him for a spy.

DEATHS IN THE ALPS.—The death toll in the Alps this season has been very large. Already more than 300 accidents have been recorded, resulting in the loss of 150 lives. No district has escaped. From the Jura Mountains, the Dauphin and Maritime Alps, the great Swiss ranges and the Austrian peaks the story is the same. Almost daily there is a tale of perilous adventure, accident and death. The general cause of disaster has been the exceptionally unfavorable weather combined with unprecedented false economy. Case after case has been due to climbing without guides in disregard of the weather and snow conditions, while several deaths have been due to the foolish and increasing practice by women of climbing attired in fashionable costumes, such as lace petticoats and light shoes. An example of such a fall was that of Miss Gillman, who was climbing Mont Pilatus attired in a smart spring toilette. There was also the case of Mme. Petiadoff, whose fatal fall on Mont Sepsosir was directly due to wearing fashionable clothes and thin shoes. One of the most marvelous escapes was that of Hon. Gerald Fitzgerald on Monte Rosa. He was passing along a dangerous edge, roped between two guides. Fitzgerald and the younger guide, Alner, fell, but the rope held and the other guide, Alner's rather, succeeded in clinging to a rock. Young Alner saved himself and, reaching the hut, telephoned for help. Fitzgerald having broken his right leg was unable to help himself and remained for several hours suspended in midair over a precipice of 10,500 feet. Thanks to the indomitable courage of old Alner, who stood motionless those seven hours with his legs propped against a boulder supporting him at the end of the rope till help arrived, he was saved.

PAIN LED TO SUICIDE.—Stephen E. Hall, a personal friend of Senator Albert J. Hopkins, of Illinois, committed suicide at four o'clock yesterday afternoon at the boarding house of Miss Mary B. Mann, 1103 Thirteenth street, Washington, because he was unable to ally physical pain. He had been in poor health for some time, and was accustomed to getting a special prescription from a brother in Chicago. For three days he had been waiting for it, and finally despairing of obtaining the medicine in Washington went to his room and shot himself through the breast. A boy who he had sent to a drugstore arrived at the house about the time the shot was heard, and said the druggist declared the kind of medicine Mr. Hall wanted could not be found in Washington. The boy was sent to his room to inform him, and found Hall's dead body of McKinley and Roosevelt, between which hung a poem on death. On a table was a slip of paper containing directions to notify Senator Hopkins. Hall went to Washington two years ago to work in the Census Office. Only recently he was transferred to the Department of Commerce and Labor.

DON'T YOU KNOW.
San Francisco, July 28, 1903.
Of all the places in the land, where people wander to and fro, San Francisco "beats the band." And "goes one better," don't you know. On Market street from end to end, The men and women in their flight, Through fog and sand the favorite blend, Keep up the race from morn till night, And all night too, some, on the go, Who through the day get the show, And have what's left, invested, With restaurants and free lunch places, Cheap fruits, and such the place abounds, And appetites which beat the races, Keep pace when salted air surrounds. And in this throng you chance to meet, Some clerk in fashion's gayest style, From all the world, upon this street, Each nation has its rank and file. So San Francisco takes the lead, And with its business push and rush, Will faster grow, and thus succeed, And reach the stake without a blush. X.

THE STORK AIDED A BETTING MAN.

The arrival of a youngster yesterday at the home of Charles H. Hermann, a widely known man about Chicago, has saved Hermann from bankruptcy. Six months ago, when he learned there would be an addition to his family, he went forth and discussed it with his hundreds of friends, expressing the hope each time that it would be a boy. From betting bottles of beer he got to betting cases of wine, suits of clothing, trips to Europe, dinners for 50 and finally money. On Saturday he bet a \$5,000 automobile and then went home to await developments. He kept a close account of all wagers in a big book. Had a girl arrived he would have been bankrupt, but it was a boy that came in sight. "My boy! My boy!" shouted Hermann. "I'm mighty glad to see you. If you had been a girl your old dad would have been busted. As it is he almost a millionaire." Hermann has employed a big teaming concern and a constable to make the rounds and collect his bets, which mount far into the thousands of dollars.

A SCHOOL OF JOURNALISM.—Mr. Joseph Pulitzer has provided the sum of \$2,000,000 to establish a school of journalism at Columbia University, in New York. A new building for the school will be erected on Morningside Heights at a cost of \$500,000 for the school, which will hold toward the university a relation similar to that of the other professional schools, as the law school, the school of medicine and the school of mines, and, like them, will be national in scope.

An important feature of the organization of this school will be an advisory board to be nominated by the donor. This board will aid in devising a plan and course of instruction that will meet every requirement on the scholastic as well as upon the more strictly practical side.
